

UL T8 Electronic Ballast

HUAFENG T8 universal electronic ballasts are specially designed for both commercial and industrial fluorescent lighting applications, and strictly manufactured in comply with ANSI and NEMA standards to ensure exceptional performance and conform to UL safety certification; Operate on multi-voltage and multi-lamp of F17T8, F25T8, F32T8, which meet different customer needs and reduce stock cost; High efficiency design and improved performance consider the benefits of energy efficiency, user comfort and energy saving.

Main Features:

Multi-Volt (120-277 Volts +/- 10 %)

High power factor (PF > 0.98)

THD < 10 %

Frequency > 40KHz

Sound rated A

Parallel lamp operation

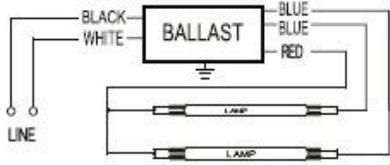

Automatic re-ignition

comply with ANSI and NEMA

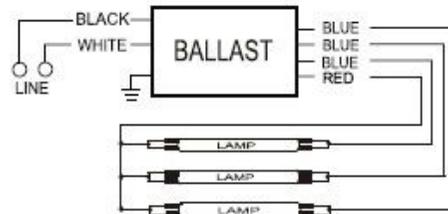

UL, CUL certified
